

W2O and W2P BEAMS: reclaimed barn beams - original face

AVAILABLE DIMENSIONS:

Available in various lengths, widths and thicknesses - please contact us with your dimensional requirements and we will source materials that most closely match your request. Due to the nature of this reclaimed material, exact dimensions may not be available.

PRODUCT NAMES:

W2O (weatherworn oak) and W2P (weatherworn pine)

SOURCE:

Reclaimed Barn Beams

SPECIES:

W2O is OAK; W2P is PINE - other species available upon request

FACE:

ORIGINAL FACE with circle sawn kerf marks

TONE:

Grey/Brown

FINISH:

UNFINISHED

W2O and W2P BEAMS are reclaimed barn beams in the raw. The beams go through the typical reclamation process of power washing and denailing with the original patina of the beam face left untouched. No finish is required as the beams have been naturally oxidized over the years to produce a tough, weather resistant "skin". Typical character marks include circle sawn kerf, mineral staining, color changes, weathering, checking, nail holes, knots, notched out pockets and heavy patina. Due to the nature of this material, thicknesses tend to vary slightly.

W2O

SOLID - SKU #EN-000355

W2P

SOLID - SKU #EN-000357

SUSTAINABLE ATTRIBUTES:

POSSIBLE LEED CREDITS

MR 4 - Recycled Content
MR 5 - Regional Materials

ADDITIONAL SAMPLES of COLOR/TONE/CHARACTER:

Photo Disclaimer: Product photos are meant to be a general guide to product appearance only. Due to our handcrafted process and wood being a product of nature, the color, grain pattern, character and profile will vary between individual beams on a project and will never be an exact match to photos or samples.
